With plants, you can see beauty grow.

With plants, you can erase the signs of passing seasons from a face, streamline a silhouette, protect a child from the sun... you can do wonders. But for that you need the knowledge, the curiosity and the persistence of Clarins researchers.

You need the power of science to extract the beauty secret from the heart of each plant, to discover its most precious and effective ingredients. With plants, you can make women and the world more beautiful. It’s a fact. With Clarins, life’s more beautiful.
Cleansing, an essential beauty step

Cleansing is a key step to preserve youthful-looking, radiant skin. By cleansing the skin without aggressing it, you perfectly prepare it for skin care applied afterwards. In the evening, it removes make-up and also the pollution, dirt and secretions accumulated during the day. In the morning, it revives, refreshes and tones skin, and illuminates the complexion.

With their many years of experience in Institute treatments and backed up by clinical studies, Clarins researchers continue to innovate to create the highest quality cleansers.

For all skin types and all occasions… and pure pleasure for the senses!
The unrivalled power of plant extracts

In nature, every plant, every flower and every leaf plays a very precise role. It’s the same with Clarins cleansers. At the heart of their formulas, each plant extract obtained from the flower, leaf, root or fruit is carefully selected for its effective action. For Clarins Research, all plants, from the most common to the most rare, are precious.

Aloe vera
A therapeutic plant with hydrating and soothing benefits.
Eye make-up removal

The eye contour is a sensitive area that requires specific skin care. Eye make-up removers are formulated with rose and cornflower extracts with softening and soothing benefits.

Clarins eye make-up removers

Gentle Eye Make-Up Remover Lotion
With a pH close to that of tears, this gentle lotion removes all traces of light make-up and strengthens the lashes.

Instant Eye Make-Up Remover
This bi-phase lotion quickly dissolves all eye make-up, even heavy and waterproof, while preserving lashes and soothing the eye contour.

Clarins Cleansing Method
Cleansing the eyes is essential for maintaining youthful-looking eyes for longer. Place a cotton pad soaked in lotion on the eyelid. Use a separate cotton pad for each eye. Gently wipe, without rubbing, over the lashes from the root to tip.

For heavy make-up, leave the cotton pad on the eyelid for a few seconds to effectively dissolve the make-up.

Dermatologist and ophthalmologist tested.
Do not sting eyes.
Suitable for sensitive eyes or contact lens wearers.

As effective as soap, as gentle as a cream!

Gentle Foaming Cleansers

It’s from the roots of a delicate white flower called gypsophila that Clarins Gentle Foaming Cleansers get their saponins, plant molecules that promote a gentle foam. These cleansers also neutralize the effects of hard water. Cleaner and fresher, the skin feels gently and delicately purified.

With Cottonseed
Normal or Combination Skin

Refreshing cleansing that revitalizes the skin.

With Shea Butter
Dry or Sensitive Skin

Gentle cleansing that provides comfort to fragile skin.

With Tamarind and
Purifying Micro-Pearls
Combination or Oily Skin

Purifying cleansing that leaves skin perfectly clean and matte.

“Gentle” plants

To provide comfort to all skin types, Clarins has developed a 100% plant complex combining gypsophila extract, polymnia extract (a plant from South America that protects the skin’s balance) and softening cottonseed extract.
A unique changing texture

**Pure Melt Cleansing Gel**  
*With Marula Oil*

On application, this melting gel veils the skin in softness, trapping all traces of make-up and impurities. Then on contact with the warmth of the skin it becomes an incredibly fine oil, which feels wonderful as you massage it in. Finally, on rinsing with water, it changes into a milky emulsion which takes with it all traces of impurities.

**Cleansing with water**

**Gentle Beauty Soap**

Containing over 99% natural ingredients, this soap perfectly cleanses the face and body while preserving the skin’s balance. Organic shea butter and hazelnut oil provide skin with softness, suppleness and comfort. Natural essential oils of citrus fruits give a subtle, fresh, delicate fragrance.
Extra-Comfort Cleansing Cream

A wonderfully soft, smooth cream cleanser rich in shea butter and jojoba oil which cleanses dry or sensitized skin, providing it with extreme gentleness and comfort.

Cleansing without water

Cleansing Milk

With Alpine Herbs
Normal or Dry Skin

With Gentian
Combination or Oily Skin

Enriched with plant extracts and Bio-Ecolia, a skin-balancing ingredient obtained from natural sugars, these Milks cleanse and remove make-up and impurities while preserving the skin’s hydrolipidic film. The skin is perfectly clean, comfortable and radiant.

Available in two formats, 200 ml and 400 ml, according to markets.
Always in a rush? Now there’s no excuse not to cleanse!

One-Step Cleansing Waters
In one step, these no-rinse cleansers with peach essential water for normal or dry skin, and mint essential water for combination or oily skin, effectively cleanse, purify and tone.

Water Comfort One-Step Cleanser
With Peach Essential Water
Normal or Dry Skin

Water Purify One-Step Cleanser
With Mint Essential Water
Combination or Oily Skin

One-Step Facial Cleanser
With Orange Extract
This radiance-boosting, no-rinse cleansing care removes even the most resistant make-up. It neutralizes the harmful effects of pollution and restores unrivalled radiance thanks to moringa seed extract.

One-Step Gentle Exfoliating Cleanser
With Orange Extract
Better than clean skin, achieve “new skin”! Quick and effective, this melting cleanser combines 4 actions in a single step to cleanse, gently exfoliate, detoxify and invigorate the skin.
The essential skin care step to complete cleansing

These alcohol-free skin care lotions combine plant extracts with Bio-Ecolia, a skin-balancing ingredient obtained from natural sugars. They protect and prepare the skin to fully benefit from skin care products applied afterwards.

**Toning Lotion**
**With iris**
*Combination or oily skin*
Extracts of iris, witch hazel and aloe vera leave the skin perfectly clean and fresh.

**Toning Lotion**
**With camomile**
*Normal or dry skin*
Softening extracts of camomile and linden flower restore the skin’s suppleness and velvety feel.

**Extra-Comfort Toning Lotion**
**With aloe vera**
*Dry or sensitized skin*
Enriched with hydrating, soothing aloe vera extract and softening linden extract, this lotion provides skin with extreme comfort.
Clarins cleansing methods

To optimize the action of its skin care products, Clarins reveals its cleansing secrets.

Cleansing with water
1. Take a small amount of product and work up a lather in the hands. On damp skin, place the flat of the hands over the face, then the neck.

2. Then with the fingertips, massage into the skin with small circular movements, starting on the forehead and moving down to the chin and neck.

3. Rinse with water. To finish, wipe with a cotton pad soaked in Toning Lotion.

Cleansing without water
1. Warm a little Cleansing Milk or Cleansing Cream in the hands. Place the flat of the hands over the face, then neck, without pressing.

2. Then briskly lift the hands off the face. Repeat 5-6 times. The Milk gradually thickens and creates a suction effect to lift off make-up and impurities without irritating or pulling the skin.

3. Remove any excess with a tissue or rinse with water. To finish, wipe with a cotton pad soaked in Toning Lotion.
